# The RANGEFINDER

vol. XXVIII no. 10, October 2019

THE NEWSLETTER OF THE OAK RIDGE SPORTSMEN'S ASSOCIATION

Please remember that when using any of the ORSA Ranges, safety should be your number one concern. Everyone must be diligent in observing and correcting unsafe actions by anyone on the ranges. Also remember that you should always wear proper EYE and EAR protection regardless of whether you are shooting or just watching.

## 2019 PERRY REPORT

ORSA high power rifle shooters have participated in the National Matches at Camp Perry, Ohio, ever since there was an ORSA and this year was no exception. Over a dozen members of the ORSA "Wind Dogs" high power rifle shooting team traveled to Camp Perry to compete in the National Rifle and Pistol Matches, held since 1907. Several ORSA members also participated on military teams or as individuals.

Part of the Camp Perry experience is gathering somewhere with your teammates, and that gathering place was Wind Dog Headquarters, kindly provided by Team Captain Rhonda Booker, and husband Randy. Rhonda and Randy's camp site was our place to be after each day of events for cookouts and lessons learned. "HQ" was set up on Thursday, July 25th, just in time for the first wave of competitors to attend clinics organized by the CMP. And essential logistics support was provided by our team Coach Alan Strachn, who pulled the equipment trailer laden with gear and supplies from Tennessee to Ohio.

Competition for the Wind Dogs began with Small Arms Firing School, or SAFS. This year, Rifle and Pistol President Bill Phelps, and Rhonda Booker, attended SAFS, where they received expert instruction from military marksman on procedures and skills needed to be a competitive service rifle shooter. Tim French and Robert "Bob" Walker attended the advanced high-power clinic where among other things, they received detailed information on wind reading, a skill always needed at Camp Perry, where wind conditions were especially challenging this year.

High power rifle matches started in earnest on Monday with the "President's 100" match. This year, the title eluded the Wind Dogs, but the Father-Daughter team of soon-to-be ORSA members, Bobby and Haley Robinson, of Polk County, NC, made the cut and earned #'s 26, and 46, respectively; Bobby and Haley frequently compete at ORSA. Of all the Wind

Dogs, Sean Peterson, shooting with iron sights, earned the high score of 282-7X that day and placed 193rd of 1063 shooters.

The National Trophy Individual Match was held the next day. In this match, shooters primarily compete to earn points towards the coveted title of Distinguished Rifleman. Robert Walker, Tim French and Sean Peterson shot in the top 10% of the non-distinguished competitors, and earned points towards a Distinguished Rifleman badge. Sean's accomplishment is noteworthy since he was one of the few remaining shooters using traditional "iron sights" as opposed to optics, now permitted by a recent rule change.

A scope doesn't guarantee a better score, or make marksman-ship fundamentals "easier", for the shooter, but a skilled competitor with solid fundamentals, will usually up their score. Since the rule change, overall, scores have steadily increased with places and points being decided by "X-count" alone. Distinguished shooter, Barney Gaskin had the top score from the Wind Dog team with a 485-13X and placed 114th of 992 shooters.

After the Individual Match some shooters took a day off to rest up for the National Trophy Team Match the next day,

## RIFLE PRACTICE RANGE IMPROVEMENTS

The ORSA Board of Directors is happy to announce improvements made to the Rifle Practice Range. These improvements are intended to accommodate ORSA members in wheelchairs wanting to enjoy shooting at a safe and accessible facility.

Recently completed modifications include an 8'x8' parking lot offload ramp, a 6' wide ramp for direct access to the firing line, and a shooting bay with a firing bench lowered to facilitate comfortable support while firing a rifle.

The Rifle Practice Range is open for member use Monday-Saturday from 9 AM to sunset, and Sundays from 12 PM to sunset, and remember - Please ensure your ammo and firearms conform to the posted rules and do so before shooting.

If you have any questions, contact Tim French, President, Rifle and Pistol, 865-389-3437, or email at: [tfrench3437@gmail.com](mailto:tfrench3437@gmail.com)

*Lowered shooting bench at the Rifle Practice Range.*

### NEWS FROM SKEET & TRAP & SPORTING CLAYS

- Our Fall Night Skeet League is off to a running start. We had 55 people sign up and shoot the first night. Annual Homecoming Skeet Tournament will be held October 26th. Please see Facebook for details.
- We held our Second Annual Junior Trap Shoot August 24. Large crowd who enjoyed our facility and bar b que lunch.
- Tuesday trapshooting continues to grow. We shoot fun targets and registered ATA targets as well. If you are interested in taking up Trap shooting this would be a good place to start.
- Our first Annual Fall Sporting Clays Tournament will happen before you read this. All 52 slots are filled with a waiting list. If you haven't tried Shotgun Golf yet come give it a try. Course is open Friday afternoon, all day Saturday and Sunday afternoon.

**LARRY MCNAMEE** - *President of S,T&SC*

## SHOOTING ADVENTURES IN ITALY

Ever thought about making a trip abroad to enjoy shooting? Thought it was too difficult or expensive? So did I until we took a trip to Italy to enter into an Olympic style tournament, and found our preconceived notions were all wrong. Our chosen destination of Italy (home of the many of the world's finest gun makers) proved to be even better than we expected.

We received an invitation to enter some of our athletes into the Green Cup Tournament at the Umbria Verde Sporting Resort in Massa Martana, Italy. The region of Umbria is in the middle of Italy, and there are many shooting ranges there, most open to the public. Within an hours' drive of our Air B&B home in Marsciano, there were no less than 10 different clay target ranges (Italy is absolutely covered with ranges). International Skeet, Bunker Trap, FITASC, Sporting Clays, Wobble Trap, 5 Stand were practiced. While not everyone spoke perfect English, shooters are shooters worldwide and we always worked it out.

We shot Bunker and Skeet at two different ranges in two different towns, after a flight into Rome. The range in Terni was laid back and not fancy at all. The range at Umbria was a resort dedicated to Clay targets and the sporting lifestyle <http://www.umbriaverdesportingresort.com/> with world class targets and field. At both ranges, rounds were about \$8 and ammo was \$6 to \$8 (depending on what shell). Like most ranges, you had some experts (the tournament featured no less than 4 Olympic medal winners) and some who missed more than they hit. But all had fun and got along because of shared passion for the games. Umbria Verde also has a world class stock maker / gun fitter on site. You'd be amazed at what Geppetto can do in a little time with a very reasonable budget.

Hotel rooms were inexpensive (approximately \$80) and food was also very reasonable (less expensive and higher quality, albeit smaller portions than what you would find here). They drive on the correct side of the road, so you shouldn't have any problems

navigating the highway. Your google maps app does a pretty good job of getting you where you wanted to be and finding restaurants, ranges, etc.

The Umbria region is mostly agricultural with Grapes, Olives, Corn, Sunflowers, Herbs, Tomatoes and Tobacco (this was a surprise). Towns are old (the bank in Todi opened it's doors at it's present location in 1425) and the sense of history is amazing. If you go, you must visit Perugia, Assisi and Todi. This is old Italy, and there are no tourist traps to be found. If you got during the right time of year (now) there are outfitters who will put you onto a large native pheasant population.

In order to bring your gun into Italy, you must apply to FITAV (the Italian governing body for shooting), you can come in under training or competition, specifying dates and primary range to be visited. If you contact Umbria Verde, they'll arrange it all for you. Once you have your entry permit, you also need a form from US Customs (#4457) which is also no cost, but you must present the firearm at the Customs office (in Knoxville).

So in summary, if you've ever had an itch to see how clay targets fly in another country, I'd suggest a little Italian adventure. Other than the plane ticket, it's no more expensive than any local shooting trip and certainly an adventure.

**JIM MAGGARD**

## MEMBERSHIP NEWS

As you may have noticed there have been recent changes in the membership secretary. I have recently changed positions on the board. For the past 10 years I have been the training officer, as of the August board meeting I have officially taken over the membership secretary duties.

I wanted to answer a couple of the more common questions that I've been getting. The two most common questions I get are regarding sponsorship and spouse cards.

On the membership form - including the renewal form, you will see a "My Sponsorship Status" section. You only need to fill this out when you apply for your original membership. There is no need to fill it out with your renewal form.

Spouse cards are available \$10 each - there is no renewal fee on the spouse cards. We do ask that the spouse fill out and send in the renewal form with any updated/corrected information so we can ensure that the membership info we have is up to date. When initially inquiring about a spouse card we do require

that the spouse fill out member application as the spouse is given their own badge. We also require that the spouse attend orientation in order to receive the badge since they have the opportunity to come to the range on their own they need to be familiar with the ORSA range rules.

Membership renewals had been going out approximately 3 months prior to your renewal date. I have recently changed that to about 45 days. If you're like me if I get something 3 months before it's due it's likely to get lost in the papers on my desk. If you haven't gotten a renewal notice or you want to renew early you can always download the member application from the ORSA website - check the renewal box fill it out & mail it in with your dues.

If you've had any changes in your contact information whether it is address, phone or email - please let us know so we can be sure you're receiving the rangefinder and your renewal notices by snail mail.

**JODY ZORSCH** - Membership

## PRODUCT WARNING AND RECALL NOTICE

### WINCHESTER® Super-X 17 HMR 20 Grain Jacketed Hollow Point

Olin Winchester, LLC is recalling two (2) lots of 17 HMR 20 Grain Jacketed Hollow Point Rimfire rifle ammunition.

Symbol: X17HMR1

Lot Numbers (last four characters):

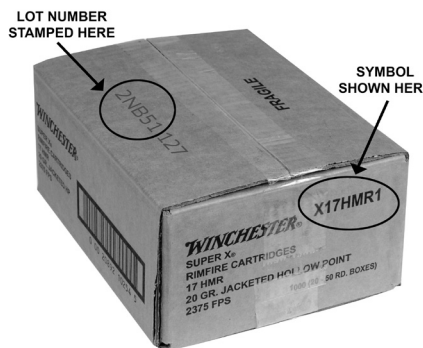

NB51 and NB61

Winchester has determined the above lots of 17 HMR ammunition may contain no powder charges. Ammunition with no powder charges may result in a bullet remaining in the barrel (i.e., a bullet-in-bore obstruction). Firing a subsequent bullet into the bore obstruction could cause fire-arm damage, rendering the firearm inoperable and subjecting the shooter and bystanders to a risk of serious personal injury.

DO NOT USE WINCHESTER® 17 HMR 20 GRAIN JHP SYMBOL X17HMR1 THAT HAS A LOT NUMBER ENDING IN NB51 or NB61. The ammunition Lot Number is stamped on the top of the 1000-round case and the outside of the 50-round plastic box as indicated here.

X17HMR1 X17HMR1

To determine if your ammunition is subject to this notice, review the Symbol and Lot Number. If it is Symbol X17HMR1 and the last four characters of the Lot Number are NB51 or NB61, immediately

discontinue use and contact Winchester toll-free at 844-653-8358 for free UPS pick-up of the recalled ammunition.

This notice applies only to Symbol X17HMR1 with Lot Numbers ending in NB51 and NB61. Other Symbols or Lot Numbers are not subject to this recall.

If you have any questions concerning this 17 HMR rimfire rifle ammunition recall please call toll-free 844-653-8358, write to Winchester (600 Powder Mill Road, East Alton, IL 62024 Attn: X17HMR1 Recall), or visit our website at [www.winchester.com](http://www.winchester.com).

We apologize for this inconvenience.

(continued from page 1)

while others continued to shoot in the Hearst Doubles, another team match in which two competitors shoot together for a combined score. Three ORSA teams competed in the Hearst Doubles. Bob Walker and David Kiefer were the Highest scoring Wind Dog team.

The National Trophy Team Match on Thursday, August 1st consisted of Team Coach Alan Strachn, Assistant Coach Randy Booker, and Team Captain Rhonda Booker. Team shooters were: Robert Walker, John Palmer, Gerald Bowers, Barney Gaskin, Mike Glasman, Sean Peterson, and Bill Phelps as backup shooter. A big thanks to pit pullers John Chubb and David Kiefer, as well as Tim French and Robert Taylor, who served as scorers.

The team shot "out of competition" this year, a strategic move by Coach Alan Strachn to prepare the Wind Dogs to compete for the team trophy in future years as this very good team of shooters becomes more seasoned and ready to compete at the highest levels. Significant improvement occurred this year as the team achieved the highest score since 2008.

The final team event, the Infantry Trophy Team Match, AKA "Rattle Battle", was Friday. This year ORSA was able to field two 6-man teams (the "Dogs" and "Puppies"), with individuals from one team supporting the other on different relays. Again, both teams shot out of competition as Coach Strachn builds the bench for a run at the title. This year it was noteworthy that this match, normally dominated by military teams, was won by a civilian team, the second time in the history of the matches.

Saturday was a transition - some shooters began their trek home, while others began shooting Vintage Rifle "CMP Games" Matches, which included the M1 Garand, M1903 Springfield, Vintage Military, and Vintage Sniper Matches. John Palmer shot an M1 Garand for the first time in competi-

tion for a team high score of 282-2X, earning a Gold Medal. Sunday, several other ORSA Shooters headed home leaving Chris Deming, Bill Arnett, David Kiefer and Kyle Kirschenmann to shoot the remaining Games Matches. By the end of weekend David and Kyle placed 15th and 24th, respectively, for the overall 3-Gun Aggregate. It was noteworthy that David had a clean sweep of 3 Gold Medals and a personal best with a 281-7X with the M1903A3 Springfield, and Kyle fired a personal best of 284-3X with the venerable Swiss K31.

"Wood Dogs" Bill, Chris, David and Kyle began Monday, August 5th, with the final match, Vintage Sniper Rifle Team Match. The difficult wind of the previous week seemed easier to call that day. It was steady and constant, with a hint of high scores and X-counts, and perhaps a medal in the breeze. Beginning at 300 yards, Chris Deming posted an impressive 97-3X with his M1903, but the scores of the other wood dogs were not particularly strong. Notably, Chris began shooting his rifle just this year, and this score was a personal best to date. Moving back to 600 yards, wind speed and direction held steady, and Chris's 97-3X was the top score at 300 Yd. David finished 600 yds with an outstanding 100-3X, a personal best at 600 yds, finishing the match with a 196-3X which was 21st of 380 individual shooters for the day. The remaining individual wood dogs shot well so that the teams of "Wood Dog 1" and "Wood Dog 2" both earned silver medals.

If you would like more information on how to join the high-power rifle shooters, please don't hesitate to contact Tim French, our new incoming Rifle and Pistol President at [tfrench3437@gmail.com](mailto:tfrench3437@gmail.com), or 865-389-3437. We still have a lot of events to compete in before the end of the season. We hope to see you soon!

**THE RANGEFINDER** is published monthly by the Oak Ridge Sportsmen's Assoc. (ORSA) and is mailed to all current members. ORSA is an organization of shooters, hunters, archers, fishermen and others dedicated to outdoor sports and conservation. A limited number of complimentary paper copies are available to interested parties and businesses on a first-come, first-serve basis. An electronic version of this newsletter is posting in the news area of the ORSA website.

Send email correspondence (but NOT address changes) regarding this publication to:  
**orsasec@gmail.com** with a Subject Line: ORSA Rangefinder

If you wish to submit an article for publication, you must first submit it to the ORSA Secretary via email. The article will then be distributed via email to the ORSA board for approval. When the board approves the article, the author will be notified.
